

## GEULAS YISRAEL

BY RABBI MOSHE TARAGIN

Ram, Yeshivat Har Etzion

# The True “Measure” of Israeli Fruits

They heard the reports and they had seen the actual fruit. They had personally witnessed the gigantic grapes hauled back by the spies. They had gazed at outsized figs and succulent pomegranates. Additionally, they recalled Moshe’s promise, decades earlier, about a Land of milk and honey. It was finally time to transition from monotonous manna to luscious fruit and abundant produce. Finally, they could take leave of the sandy desert and enjoy the lush pasturelands of Israel.

Moshe doesn’t disappoint them. He lists seven varieties of crops and fruits which are indigenous to the Land of Israel: wheat, barely, grapes, figs, pomegranates, olives, and honey. This catalog is a balanced list of basic grains for nourishment, essential fruits for both vitamins and commerce, as well as scrumptious delicacies.

It is uncommon for one single region to yield both grains, as well as olives and pomegranates, fruits which typically require tropical climates. Yet, Israel is outfitted for *both*, precisely because it isn’t a *specific* region. Instead, it is a microcosm of *all* the world’s regions, and it covers a broad

range of climates and topographies. Everything can be found in this magical Land of Hashem.

### Lyrical Fruits

Fruits and cops in Israel are more than just edibles. The epic saga of Shir Hashirim portrays a legendary courtship between a king and a peasant girl, which, in reality, is an allegory for our relationship with Hashem. At various points in the story, the woman, or the Jewish people, are compared to grapes, pomegranates, wheat, figs, and honey. The “fruits of Israel” are poetic metaphors for the beauty of the Land and the splendor of its people. Hashem conveys his love to us both through fruit metaphors and also, by providing actual produce. Moshe channels the mystique of these fruits to excite the people about the Land of their future.

### Halachic Manuals

Interestingly, Chazal viewed these iconic and visually appealing fruits as a handbook of halachic measurements. These fruits aren’t only symbols of the Land’s fertility, they are also codes for halachic measurements and quantifications, known as *shiuirim*. For example, wheat assists us in determining tzara’at impurity. If someone lingers in a house afflicted with tzara’at long enough to consume wheat bread, he becomes impure. Similarly, figs represent the minimum “size” of food which, if carried from private to public domain on Shabbat

constitutes a violation of the melacha of hotza'a. Of course, everyone is familiar with olive-sized 'k'zayit' *shiur* which governs the halachic act of eating. The fruits aren't just romantic symbols of our love with Hashem and His Land, they are also halachic instruments affecting a wide range of halachic applications.

What are these seven fruits and crops? Are they beautiful embodiments of the Land of Israel or are they halachic codes? In truth, they are both, since our association with the Land of Israel is both halachic and poetic. The fruits convey a dual metaphor reflecting the two modes of our love for Israel.

### A Land of Commandments

The midrash frames Moshe's request for entry into Israel as a desire to fulfill mitzvot which weren't compulsory outside the Land. Living in Israel, in the immediate vicinity of Hashem, requires and invites greater halachic dedication. It is inconceivable that the presence of Hashem doesn't also mandate greater halachic obligation. The closer we stand to Hashem and the more intimate our relationship, the more augmented our duties and our commandments.

Entire *systems* of halacha pertain only in Israel, from agricultural laws to national

obligations such as building a mikdash, appointing a king and eliminating idolatry. Moreso, the Ramban asserted that *all mitzvot* are limited to the Land of Israel. Mitzvot outside the Land of Israel are merely rehearsals for authentic mitzvah performance upon our return to Israel. Our tradition has rejected this extreme position, but this opinion captures the spirit of “augmented” halachic responsibilities in Israel.

For this reason, Chazal deciphered the seven fruits as codewords for halachic information. The orchards and wheatfields of Israel are legal manuals guiding our adherence to halacha.

### **Processing Redemption with Halacha**

Our relationship with Israel, though, must not be reduced *purely* to “halachic calculus”, and cannot be appreciated solely by assessing how many extra mitzvot apply in this land. This type of halachic calculus generated a radical position asserted by a 12<sup>th</sup> century Tosafist named Rav Chaim Cohen. He argued against emigration to Israel, as immigrants would become entangled with unfamiliar halachot which are difficult to adhere to. Instinctively, we disagree with this attitude and bristle at the notion of avoiding halachic responsibility – even if the halachic duties are complicated and challenging.

This extreme 12<sup>th</sup> century position highlights a general tendency to frame our relationship with Israel and with redemption, purely through halachic models. This is understandable, given that we have absolutely no tradition about redemption, and we are advancing along uncharted historical territory. This is the first time that we are experiencing redemption without prophetic

guidance. In the absence of any concrete masorah about redemption, it is reasonable and even logical to fall back upon halachic paradigms for guidance.

The issue, however, is that redemption, by definition, doesn’t naturally fit into halachic models. Redemption is a history-altering experience which awakens the deep soul of Jewish consciousness. It is a historical lyric sung by The Jewish imagination throughout the generations. The sound is growing louder as Hashem calls us back from the wastelands of exile urging us to partner with him in the closing chapter of human history. This divine echo can’t be construed through the halachic terminology of obligations and prohibitions. Of course, we cannot, G-d forbid, violate one iota of halacha in the “service” of redemption, however, redemption can’t and shouldn’t be understood solely through a halachic lens. Redemption is a poetic leap of the Jewish imagination—a return to the orchards and olive groves of our past romance with Hashem.

### **Two Examples of Halacha-ization**

Often the issue of reciting hallel on Yom Ha’atzmaut is incorrectly viewed as a barometer for a person’s commitment to the redemptive experience. It is perfectly legitimate for someone to decline to say hallel based on numerous halachic considerations, while still deeply identifying with this historical process. Redemptive attitude cannot be gauged through halachic instruments. It is too personal and too historical.

Likewise, the question of whether living in Israel constitutes a mitzvah is often cited, when discussing the redemptive nature of the State of Israel. Only if there is an actual mitzvah to live in Israel, the argument

goes, should 1948 be defined as redemptive. Famously, the Rambam omitted living in Israel as a mitzvah. Does that mean we should be less devoted to the process? Again this is a misapplication, as, ironically, living in Israel may be too large and too seminal to be shrunken into a specific or narrow mitzvah. It may be *too seminal* and *too important* to be listed among the roster of 613 activity-based mitzvot. Again, a halachic model- in this case defining an act as a mitzvah- may not be capable of fully capturing the spirit of redemption.

Many voices call us back to our Homeland. The Land of augmented halachic observance is calling us. The Land of ancient romance between Hashem and His people is calling us. A Jew must answer each of these calls. The fruits of Israel are speaking again.. in stereo. ■
